### Why is Worldview important?

*“Your worldview is the filter that you use to see and understand and experience and respond to the world around you. Because your worldview enables you to make sense of the world, you need a worldview just to get through every day . . . In fact, every single decision that you make, and you make hundreds of them if not thousands of decisions every single day—every one of those flows through your worldview. The choices that you make are a result of what you believe, as described by your worldview.” (George Barna, Sept 16, 2022)*
